

Bamboo Health Names Erik Moore Chief Technology Officer

Moore brings more than 20 years of experience driving business growth through product development and technological innovation

Bamboo Health™, the leader in Real-Time Care Intelligence™, announced the appointment of [Erik Moore](#) as the company's Chief Technology Officer (CTO). With a robust background in leveraging technical expertise to drive business growth, Moore will spearhead Bamboo's technology, ensuring all technological resources are aligned with Bamboo's goals of enhancing healthcare delivery through innovative, reliable and secure solutions.

"Erik's experience as a technology innovator and engineering expert will add to the exceptional caliber of our executive leadership team. His leadership will be crucial in accelerating our growth and driving our innovative initiatives forward as we respond to market opportunities and maintain our focus on superior patient outcomes," said Jeff Smith, Chief Executive Officer at Bamboo Health. "We are excited to welcome Erik to enhance our strong leadership team to deliver exceptional results for individuals during pivotal care moments."

Moore brings more than 20 years of experience in the healthcare technology sector, focusing on improving healthcare outcomes through technology innovation and leveraging product development as an avenue to solve today's problems with an eye to the future. Moore has led start-ups and Fortune 500 companies in finding creative ways to respond to market demands, improve productivity and build revenue and profit through cutting-edge products and services.

Prior to joining Bamboo Health, he held various positions at Optum, Siemens Healthcare and CVS Caremark.

"I'm honored to join the Bamboo Health team, where I can leverage my experience to build on the company's strong foundation," noted Erik Moore. "I look forward to augmenting the company's innovative solutions that empower healthcare professionals to provide the best type of care during pivotal moments for individuals, strengthening healthcare organizations and the communities we serve."

Moore earned his master's degree in computer science from Lehigh University and his bachelor's degree in mathematics/computer science and economics from Ursinus College.
