Micro Merchant Systems Announces Darrell Hyde to Chief Technology Officer Postion

Micro Merchant Systems, provider of the industry-leading PrimeRx™ pharmacy technology system, has announced the appointment of Mr. Darrell Hyde to the position of Chief Technology Officer (CTO). In this capacity, Mr. Hyde will oversee the company's strategic vision and direct future growth, specifically focusing on cloud and SaaS transformation. He will serve on the company's senior management team.

"Darrell brings an impressive background working in the technology industry, with experience in cloud technology, security, and infrastructure," said Micro Merchant Systems CEO Ketan Mehta. "He is a true visionary with regard to the limitless possibilities of technology and will be an integral part of our ongoing work to develop innovative solutions for the pharmacy industry."

Prior to joining Micro Merchant Systems, Mr. Hyde was employed by Wayfair, where he led product development initiatives. Before that, he served as Vice President of Product at ClearDATA™, a healthcare cloud computing company where he focused on building cloud-based products to automate security and compliance controls.

Mr. Hyde will report directly to CEO Mehta and split his time between the company's New York headquarters and a regional office near Philadelphia, PA.
