

Siddiq Anwar Promoted to Observer, ISN-Advocacy Working group at ISN

In 2019, Anwar became a Member of International Society of Nephrology (ISN) Interventional Nephrology Working Group, Young Nephrologist's Committee and Middle East Regional Board. He has now been promoted to Observer, ISN-Advocacy Working group.

He also currently holds the position of consultant physician at Sheikh Shakhbout Medical City. He is a keen educator with a special interest in simulation training to refine individual and team skills and competencies. He is engaged in data management and application to improve both patient and healthcare outcomes. Anwar is working on multiple projects to improve healthcare delivery in SEHA.
